Letter of Acknowledgment

To whom it may concern

The Red List Unit of the International Union for Conservation of Nature (IUCN) would like to gratefully acknowledge the invaluable contribution and support of Professor Viktor Ivanovych Melnyk to The IUCN Red List of Threatened Species.

In 2010-2011, Professor Melnyk participated as an expert assessor in the first European Red List of Vascular Plants (supported by the European Union), and his expertise has again been invaluable in updating the Red List assessments of selected vascular plants that occur in Ukraine, including species that are endemic or near-endemic to Crimea.

We would like to thank Professor Melnyk and the National Academy of Sciences of Ukraine for their support.

A handwritten signature in black ink, appearing to read 'D J Allen', with a horizontal line underneath.
